In this session we will take a closer look at the latest Practice Note which will be published by the Law Society on the 12th May. Strategic Account Manager at Groundsure, Nick Treble, will summarise the updates and explain what they mean for conveyancers.

Nick will provide:

- A summary of the practice note
- The definition of climate change risks
- The ClimateIndex module, climate change data, and available reports
- The climate change tool kit and support that is available to you and your clients
- Practical guidance and next steps

Speaker Profile:

This webinar will be presented by **NICK TREBLE** of Groundsure. Nick joined Groundsure in August 2011 as an environmental consultant with an MSc in GIS & Environmental Management, and a Bachelor of Science degree with Hons in Physical Geography. Nick's duties as a consultant and later as manager of the residential team included writing/reviewing assessments of risk, and addressing a wide range of technical scientific queries including report findings on contaminated land, flooding, ground stability and more. Having spent almost 4 years managing the residential consultancy team, Nick took on the responsibilities with our channel partners in 2015. He spends most of his time providing training/updates and CPDs on a broad range of environmental subjects and environmental searches. This gives him wide ranging experience of environmental risk in property and Groundsure's environmental search reports alongside a passion for environmental science and geo-spatial risk.
